Date of birth: 09/03/2003
Nationality: Kenyan
Languages: English, Kiswahili

PROFILE

I am a motivated undergraduate student pursuing a BSc. in Business Information Technology (BBIT) at Dedan Kimathi University of Technology, Nyeri Main Campus. I possess strong analytical skills and extensive education in programming. I have a proven track record of actively participating in tech projects and collaborative initiatives. I am seeking a position where I can maximize my experience in management and program development and am eager to leverage my academic knowledge and practical experiences to develop innovative IT solutions.

EDUCATION

1. Dedan Kimathi University of Technology, Nyeri Main Campus, from October 2021 to August 2024

Expected Graduation: December 2024

2.Secondary School: Bavuni Secondary School, Nakuru, from January 2017 to 2021

KCSE Grade: B

3.Primary School: Nyathuna Primary School, Nakuru, from 2008 to 2016

KCPE Score: 329 marks

SKILLS

Good programming skills: I am proficient in web development through programming languages such as JavaScript, HTML, and CSS to develop websites.

Database Management: I have acquired practical skills in managing databases effectively with the knowledge of database systems such as SQL.

Effective problem-solving skills: troubleshooting in resolving hardware and network issues and fixing bugs in software and systems.

Project management: the ability to plan, execute, and oversee IT projects, ensuring they are completed on time and within budget, is attained through a unit of project management.

ACHIEVEMENTS

 • I successfully developed a website for a recruitment management system that solves organizational problems as part of my final year project.

•I received a certificate in high school for participating in a mathematics contest.

• Earning an IT certification from Cisco's CCNA validates my skills in configuring Cisco networks.

• I received an award certificate for serving as a leader in the DKUTCU Creative Ministry at Dedan Kimathi University of Technology.

HOBBIES & INTERESTS

I love dancing. I have been part of the DKUTCU creative ministry, which involved dancing, poetry, and art, among others. Since dancing involves working as a group, it has enhanced my ability to collaborate effectively with others on team projects in IT. Additionally, it has helped me with creativity and innovation, which I apply to develop creative IT solutions. Regular practice and commitment to dancing have instilled a strong work ethic and confidence in me. Learning new dance styles and routines has made me adaptable and open to learning new technologies and methodologies in IT.
